Alexas - I'm in Minneapolis right now for a methane detection thingy. Back in the office Wed.
Can you give me a ring in case I forget?

Hi Cindy-

I see the do not reply message, but if you are telecommuting shoot me back an email. Based on the OOOOa, some changes have been made to the FIP requirements for LDAR. As a result, the LDAR VOC tpy reduced and total VOC tpy reduced has increased. I put the new numbers into your emission reduction spreadsheet and I'm going thru the TSD and notice to update the new numbers and correlating sections now. But since you created the emission reduction spreadsheet and are familiar with where all those numbers were used I'd appreciate a second pair of eyes on the TSD and notice.

Thanks-

Alexas
